

# Allure Sprayer

## Technical Data

|                    |                |
|--------------------|----------------|
| Power source:      | 230 V, 50 Hz   |
| Power consumption: | 280 W          |
| Noise Rating:      | 75.5dB         |
| Hose:              | 3.5m           |
| Cup Volume:        | 200ml          |
| Weight:            | approx. 1.6kg  |
| Colour:            | Black & Bronze |

+

### SATIN SPRAY NOZZLE TECHNOLOGY

Finest atomization for perfect coverage, a smooth feeling on the skin and low overspray

+

### FINE & PRECISE FLOW CONTROL

The solution dial has been especially designed for the tanning market and gives 0-0.50ml of solution control.

+

### STYLIZED SALON DESIGN

Gloss black surfaces and metallic finishes give this machine a lavish feel of glamour, class and luxury.

+

### WHISPER QUIET TURBINE

Less noise allows more flexibility for salons, spa's & training schools. You can now listen to your customers and students.

+

### LIGHTWEIGHT TURBINE with CABLE MANAGEMENT

Compact, feminine and easy to store away, with a practical, first to the market cable management feature.

+

### RETRACTABLE CARRY HANDLE

Unique hidden handle sits neatly within the design of the turbine and draws up to aid in storing and moving the machine. Customise with branding available.

+

### GUN HOLDER

Machine can be moved with the gun docked. No spillages, no need for extra hands. All in one storage solution.

+

### LONG FLEXI HOSE

3.5m Durable, extra soft, extra flex hose for increased manoeuvrability. Twist & lock connection at gun.

+

### INGENIOUS FILTRATION SYSTEM

Overspray is channelled behind the side panel and directed into the filter hidden underneath the unit.

# ALLURE Key Benefits

- Smooth spray feeling on the skin with perfect coverage on the body.
- Very low overspray so minimal solution wastage.
- Maximum + and Minimum – flow dial control. The amount of solution on the body can also be controlled by the distance you spray from. Further away, less solution will reach the body and + will be required. And vice versa. The dial gives you more control when spraying, you choose the volume best for your style of spraying.
- Quiet turbine allows conversation whilst spraying, making the experience more sociable.
- Sleek appearance will add a sophisticated touch to the ambience of your salon.
- Easy to store away due to its compact styling, and the cable management feature prevents any accidents.
- Spillages are avoided with the dockable gun and the sturdy non-leak solution cup designed to stand upright even with the hose attached to the gun.
- All solution is lifted from the cup as the toothed pick up tube and concave cup allows for no solution to be left behind.
- Long hose enables increased manoeuvrability and the easy connections save on time. Twist lock hose connection to gun prevents 'blow off' during spraying.
- Motor unit ON/Off is a grooved dial, kinder to nails and easier to grip.
- Gold Filtration duct which collects any overspray and directs to the filter discreetly hidden underneath the unit

★ Twist & lock' hose connection

★ Satin nozzle technology

★ Fine tuning flow control dial

★ Customization branding

★ New non-topple translucent solution cup

★ Pull up/ push down handle

★ Gun holder

★ ON/OFF easy grip dial

★ Filtration system

★ 3.5m small bore hose with push cuff at turbine

★ Cable management around foot base

# Satin Nozzle Technology

The highly engineered spray gun nozzle which has been especially designed for the tanning industry generates the finest atomization for perfect coverage of the body, and a smooth feeling on the skin.

Easy 3 piece cleaning, no removal of needle, no chance of putting the gun back together incorrectly.

Generous air channel collaborates with the 'Satin Nozzle' to give the ultimate air flow, producing an optimum spray and the lowest overspray.

# Tanning Extraction Unit

+

Unique circular design minimises trapped airflow causing increased airflow efficiency.

+

Easily removable washable main round filter for long life.

+

Monitor filter to indicate when main filter needs washing.

+

Air gap between filter and motor inlet gives greater air permeability through the filter.

+

Carry handle for ease of manoeuvrability for mobile beauticians and salons.

+

Glamorous Gloss black easy wipe clean surfaces. Attractive and practical.

+

Kettle lead socket for EU and UK plug adaption.

Voltage: 230V
